

THE HARLEY'S ANGELS ARE CRUZIN' TO CURE BREAST CANCER!

Harley's Angels- Cruzin' to Cure is a group of women motorcycle enthusiasts dedicated to promoting breast cancer awareness, research, and education.

Our primary fundraising project is the publication of a calendar featuring the women of "Harley's Angels". The calendar is tastefully designed featuring the women of Harley's Angels and our motorcycles. We are not your stereo typical "biker babes". Harley's Angels keep it real, real women and real bikes riding for the cause. With one out of eight women diagnosed with breast cancer, it is no surprise there are also several breast cancer survivors within our group.

Our first calendar was published in 2003 and after twelve successful calendar years, you are likely to find our calendars anywhere from bike shops to grandmother's kitchen. We have donated over \$700,000 to two of Houston's finest research centers supporting Dr. Kent Osborne and Dr. Matthew Ellis, with the Lester and Sue Smith Breast Center and Baylor College of Medicine, and Dr. Kelly Hunt, Professor of Surgical Oncology and Chief of Surgical Breast Section at MD Anderson Cancer Center.

Harley's Angels - Cruzin' to Cure, is a Texas non-profit 501(c)3 all volunteer organization. As we launch our 2015 fundraising year with a beautiful new calendar, you can join in the crusade with your donations in the fight against breast cancer and receive a calendar as our gift. We welcome you to visit our website at www.theharleysangels.org and on Facebook.

We also collaborate with breast cancer organizations, corporate employee giving initiatives, and we would love to partner with you!
Together we ARE making a difference.
